AviatorIQ Score

Exploration Phase

Your Pilot Profile

Full Name	Test Pilot	Country	United Kingdom
Age	25 years old	Pilot Goal	Airline pilot (commercial)
Preferred Route	Integrated ATPL	Start Timeframe	As soon as possible
Budget Range	50k-100k	Funding Method	Career development loan
Class 1 Medical	No concerns	Flying Experience	Never

Recommended Training Route

Based on your profile, the recommended training route is: **Integrated ATPL**

An Integrated ATPL programme takes you from zero to frozen ATPL in 18–24 months at a single approved training organisation. It is the fastest route to the flight deck but requires the largest upfront investment (typically £80,000–£120,000). Airline partnerships and cadet sponsorship schemes are most commonly offered through integrated providers.

Estimated Cost & Timeline

Estimated Total Cost

£45,000–£100,000 (varies by route and country)

Estimated Timeline

18–24 months

Key Risks & Your Biggest Barrier

Based on your assessment, your biggest barrier is: The cost. This is a common challenge for aspiring pilots at your stage. The next actions section below provides specific steps to address this.

Your Next 5 Actions

- 1 Book a Class 1 Aviation Medical with a CAA-approved AME to confirm your medical fitness before committing to training costs.
- 2 Research Integrated ATPL programmes in United Kingdom — request prospectuses from the matched schools in your AviatorIQ report.
- 3 Arrange a training finance consultation if required — many schools offer payment plans and specialist aviation lenders exist.
- 4 Join an online pilot community (PPRuNe, Reddit r/flying) to connect with students currently in training on your chosen route.
- 5 Return to AviatorIQ to request introductions to your matched schools — they have been selected based on your specific profile.

Ready to speak with a flight school?

Return to your AviatorIQ results page to request introductions to your matched schools. They will receive your full profile and contact you directly.
